## 1800 ASTHMA (1800 278 462)

A free information and support service for anyone with questions or concerns about asthma. A free spacer can also be provided if required.

Learn more at [asthma.org.au/1800asthma](https://asthma.org.au/1800asthma)

## APPS

**Asthma First Aid App** - Asthma First Aid in the palm of your hand.

**Kiss myAsthma App** - An app for young people, developed by young people to track symptoms, goals and plans.

**Menzies Asthma App** - An interactive app for Aboriginal and Torres Strait Islander families and health practitioners in eight different languages used in northern and central Australia.

Learn more at [asthma.org.au/apps](https://asthma.org.au/apps)

## REFERRAL SERVICE

This service aims to work with the referrer to achieve improved asthma control in patients by providing additional evidence-based asthma self-management education and support. Referring is quick, easy and secure. Select a template from your practice software or our website and send by Secure Message: HealthLink (asthmaus) or Fax (07 3257 1080) or, complete the webform.

Learn more at [asthma.org.au/referrals](https://asthma.org.au/referrals)

## HEALTH PROFESSIONAL TRAINING

**ThinkGP Asthma Education** - Update your asthma education with our free accredited Asthma in Australia: Practical solutions for challenges for primary care course produced by ThinkGP. Register at [thinkgp.com.au/asthma](https://thinkgp.com.au/asthma)

**Online Spirometry Training** - Asthma Australia in partnership with Spirometry Training Company, are offering Fundamentals in Spirometry. This online spirometry training course is designed to give participants a solid theoretical foundation in how to perform quality spirometry to international best practice standards to optimise asthma diagnosis and management. Register at [asthma.org.au/spirometry-training](https://asthma.org.au/spirometry-training)

## ASTHMA ASSIST & ASTHMA TOOLKITS

Sign your patients up to Asthma Assist and they will receive an Asthma Toolkit that explains all the essential asthma information including Asthma First Aid. The Toolkit also contains a blank Asthma Action Plan.
